

## Research Assistant position available

Applications are invited for a full-time Research Assistant to work in the Institute of Neuroscience and in collaboration with The Irish Longitudinal Study on Ageing (TILDA) at Trinity College Dublin and University College Cork. The position is available from **1<sup>st</sup> April, 2020**.

Candidates must have an interest in the effects of ageing on perception and be comfortable working with large data sets and statistics. TILDA obtains data on multisensory perception from over 4000 older adults and is entering its second wave of data collection with this particular measure. Duties of the successful candidate will therefore include assisting with data quality checks, analysis and manuscript preparation, in addition to other possible activities including lab-based testing and public outreach. The candidate must be highly motivated and organised, as well as being a team player.

The position is suitable for candidates with a background in Psychology, Neuroscience or a cognate subject. This is a great opportunity for anyone who is considering a research or professional career in Psychology or data science and wishing to further their research skills in these areas. The candidate will join the Multisensory Cognition Group in the Institute of Neuroscience, which is headed by Professor Fiona Newell.

This position is for a duration of 12 months, with the possibility for further extension. The salary is in line with Irish Government pay policy.

To apply, please send your CV, including contact details of two academic referees, and a cover letter indicating your research skills and interests to:

Dr. Rebecca Hirst, Institute of Neuroscience, Lloyd Building, Trinity College, Dublin 2, Ireland. Email: [hirst@tcd.ie](mailto:hirst@tcd.ie).
